ARSCP Board 2014/16

Members elect a Board for a two year term.

- Prof Ifeolun Kenny Adewumi– Nigeria, President
- Ms Imane Chafiq-Morocco, Secretary, member, representing North Africa
- Mr. Edgar Mugisha-Uganda, , Treasurer, member representing business,
- Mr. Lambert Faabeluon-Ghana, member representing West Africa
- Mr. Tawanda Muzamwese-Zimbabwe, member representing Southern Africa
- Mr. Mahamat Abdoulaye Issa, Chad, member, representing Central Africa
- Mr. Stephen Niyonzima-Rwanda, member representing East Africa,
- Ambassador (Ms) Caroline Usikpedo, Nigeria, member representing women/children
- Prof Charles Mbohwa, Zimbabwe, Member representing academia
- Mr Ndivhuho Raphulu, South Africa, ex-officio
- Mr Andrew Kitenge, Tanzania, Executive Secretary.

African Roundtable on Sustainable Consumption and Production

Introduction

African Roundtable on Sustainable Consumption and Production (ARSCP) is a regional non-governmental, not-for-profit international organization that was established in Casablanca, Morocco, in 2004 by the National Cleaner Production Centres of the region together with other SCP practitioners present at the meeting. It was registered in Tanzania in September 2004 under the Societies Ordinance, 1954, and given a certificate of registration number SO.12734.

Vision and Mission

The ARSCP vision is to achieve faster and sustainable development of African countries with an effective contribution to the reduction of poverty and improvement of the quality of life without jeopardizing the carrying capacity of its ecosystem. It aims at becoming the apex NGO on SCP in Africa.

The ARSCP mission is to promote the development of national and regional capacities for the effective promotion and implementation of principles of sustainable consumption and production and to serve as the regional clearing house for sustainable consumption and production concepts.

The Key Objective of the ARSCP

The overall objective of the ARSCP is to facilitate the development of capacities for SCP and promote application of the concept in Africa.

Contacts

For more information about us, enquiries, joining, donations and projects, our contact details are:

**The ARSCP Secretariat,
393 Mahando Street, Masaki
P. O. Box 105581,
DAR ES SALAAM, TANZANIA**

**Telephone +255 22 2602338/42
Fax: +255 22 2602339
Email: secretariat@arscp.org
Website: www.arscp.org**

Organization

The organizational structure of ARSCP consists of three bodies: the General Assembly, the Executive Board and the Secretariat. The ARSCP Executive Board comprises elected members on two-year terms. The Board members are chosen to reflect a balance between geographical zones and key stakeholders.

ARSCP operates through a permanent Secretariat headed by an Executive Secretary. For most of its activities, ARSCP relies on its members. Currently (2015) it has 284 members scattered in 41 African countries.

Membership

ARSCP has three categories of membership - individual, institutional and corporate members. We also have special members, namely patron institutions. An ARSCP member pays a biennial membership fee and accepts our constitution. In 2004 ARSCP started with 47 founder members and today the membership has grown to 284 from 41 countries.

An ARSCP member shall be willing to share information on SCP, pay membership fee and shall conduct himself/herself in the spirit of international cooperation and foster regional cooperation in line with its vision and mission.

Finance

Funds for ARSCP activities have mainly been raised through the Marrakech Process Special Task Force for Africa, led by Germany. UNEP and UNIDO have also greatly assisted us in the last 10 years. We carry out paid-up projects, hold conferences, sell publications and also accept special contributions. We accept donations in the form of money or in kind for the running of the organization, funding of our regional meetings and undertaking projects.

You are kindly requested to contact us for your donation or special project financing. With us you can begin your sustainability journey by ensuring SCP reaches all and is owned by every human being. Share with us to save our planet.

Joining ARSCP

By joining ARSCP you become a key player and stakeholder in protecting our planet Earth. To join, contact the Secretariat, any Board member or any NCP in

ARSCP Builds Synergies for SCP Development in Africa.

Areas of Contribution

Convening conferences on SCP

As key implementers of the African 10YFP on SCP, ARSCP has taken SCP to all the subregions of Africa through its biennial roundtable meetings on SCP. Our platform was extensively used by the Marrakech Task Force to disseminate information in the region. Since the year 2000, ARSCP has convened 8 regional meetings on SCP and produced meeting reports.

We organize meetings, conferences and workshops anywhere in Africa. Our members can also provide you with valuable papers and presentations for your regional meeting. Try us for your next conference relating to 10YFP on SCP.

Capacity building and training on SCP

We started with cleaner production, then resource-efficient and cleaner production up the ladder to a green economy. ARSCP provides capacity building and training services in SCP to ensure that our clients meet the needs of the market and community without destroying the environment. We carry out organizational development, technical training, leadership training, management improvement which, in turn, increases the government and business capacity to practice SCP. We develop company staff in order to improve on their ability to move towards a green economy by increasing their profits while at the same time protecting our ecosystem.

Provision of expert advisory services

ARSCP provides consultancy services on SCP ranging from SCP policy formulation, project formulation and project write-up, to implementation, supervision, reviews, assessments, monitoring, and control. ARSCP is well conversant with Africa and can create a solution embedded with sustainability.

Expert mobilization

ARSCP can mobilize a team of experts for your work in Africa. We have a databank of over 100 professionals in over 41 African countries. If your work is related to SCP we are the best source for regional experts. We know who can do what for each country where we have members. Ultimately, we plan to have resource people in each African country.

Project management

ARSCP provides project management and environmental engineering services for SCP projects in industry, business, government, academia, research and NGOs. We provide comprehensive project management capabilities including extensive expertise defining project management system specifications, developing processes and management reporting systems.

Research

ARSCP provides unique, niche-focused research that seeks to capitalize on areas of SCP. We are networked with universities where some of our members are professional SCP experts. We deliver accurate, timely research and data collection for our region and add value in specific areas of SCP. ARSCP research services represent a selected roster of researchers that have a proven track record for their ability to give results.

Networking

To get your information across the public you need a reliable network. Our knowledge management system employs modern technology, ensuring your information reaches all. Also, with our network of members scattered in almost all countries in Africa and beyond, you can rely on us for disseminating your message.

International co-operation

ARSCP is fully geared to international business in the areas of SCP. We are confident of undertaking any regional work, conference and training on SCP using our network of experts in the region and outside Africa. The ARSCP Secretariat will not only source them but also coordinate any such work, taking the responsibility for monitoring, reporting and production and winding up reports

Clearing House for SCP in Africa

ARSCP is the regional clearing house for sustainable consumption and production. Our knowledge management system (under development) will contain the most relevant SCP information there is to know.
